Professional Summary

Sophomore Data Science student at Oregon State University with proficiency in R and Python, and a strong foundation in statistical analysis and data visualization. Brings hands-on experience from real-time data entry from professional soccer and college football games.

Education

Bachelor of Science: Data Science — Sep 2025 – Jun 2029

Oregon State University - Corvallis, OR

- 4.0 GPA, Dean's List - all terms (Fall 2025-Present)
- WUE Scholarship
- Relevant Coursework: Calculus Sequence (Differential, Integral, Vector), Intro to Statistical Methods I and II, Engineering Computation and Algorithmic Thinking

---

Work Experience

Data Journalist

Sportradar — July 2026 – Present

- Work press box operations for professional soccer matches (MLS, NWSL) and NCAA Division 1 college football games, entering live play-by-play and statistical data in real time
- Collaborate with press box personnel during live, high-visibility broadcasts, gaining hands-on experience in professional sports operations

Learning Assistant

Oregon State University College of Science — September 2026 – Present

- Support 200 students per lecture in Intro to Statistical Methods, providing one-on-one guidance to reinforce concepts as they're taught
- Collaborate with the instructor to identify points of confusion and give feedback that informs pacing and future lectures

---

Skills

- Coding in R and Python, Statistical Analysis, Data Visualization, and Data Entry and Management.
